Hi Dave,

Just wanted you to know that my folks (including attorneys) have some comments and questions to sort through before I send you our feedback on the letter and talking points. I plan to send you something on Monday. By the way, I heard about the new Ecology Director appointment (will that affect your Feb 14 briefing or overall timeline?) and also wanted you to know that, in a call with WA tribes yesterday, several of them asked us to offer govt-to-govt consultation on EPA's review of the upcoming SMS submittal. I mentioned this to Martha today (we were in Lacey for the WQS policy forum). Have a nice weekend.

Angela Chung
